

First degree of understanding to living your spiritual life

It is learned that we know yourself. Get to know and understand us

who are you and where you come from,

what strength is that leading us here and why?

To understand ourselves you must understand your origins, spiritually.

We're starting with the first question: Who are you?

When you are from your mother's womb—or neither Vodouisan, nor Catholic—nor Protestant—Nor Muslim—nor Ehdouism, you do not yet have any religious concepts and doctrine in mind.

You are a Soul in a Physical Body!

You are not a physical body that has a in me.

It's the first universal truth you have to seek to find - than it is part of the concept that can take place for you.

You are an immortal Soul, who has a free arbiter or once you *are inked on earth*. It is the arbitrary free that discengages you with an animal for example. The animal, perfect (perfect-perfect) whereas you, as soul and a free referee, a conscience, still have a choice. "There is always nuance in your perception you are always before a choice than the ""binary"" world It means either it or not, it's right or it's left, front - behind, true or strong, 0 - 1." This absolute truth is the Marassaa principle in Vodou, which we will see in all its later dimensions in the Haitian Vodou Study.

That's why in other religions, they speak of karma - All choices have consequences... each choice leads in a path. Today, you soul in a body, if you were born in Haiti. that is why... It is your karma that you live. The soul is the sum of everything it has vectored since it is a soul.

The soul coming to earth is for reason, either it comes for the first time, or it will return for the purpose of all actions, its vectors pass them... The binary world, this means that you are going back to living a life that was totally not what you live today.

Before I return or come to earth for the first time, he has one, or pluralizing in me with whom he has attachment. to assist him to live the great path of life on earth,

In Me those with whom you have spiritual attachment to YOU... WE CALL THEM... BIRTH LAWS... elsewhere on earth, the group of my my people who are walking with you on earth is called **spiritual GUIDE – Ange Guardian...**

Nan domèn la syans. rele prensip sila, "The Inner Self - Inner Soul".

The law of your birth is there to help you fulfill your mission on earth. It is the one who knows why you are on earth, what you have come to accomplish. **By the end of the week, we will be learning the technique of communicating one with your Birth Certificate.**

To get back to the concept of The I...

The pass in me has a free referee, he has choice, he has options... he chooses

- in which country to be in,
- she chooses her sex,
- his mother chose his father... who generally kenya a karma and father mother who peemet it inkane on earth,

This is the 2nd universal truth. It is an evolution that is in me to be inkane on the earth.

While you are on the ground you will develop 2 nature.

- A sensitive nature –
- an intellectual nature

Lew from your mother's womb is the sensitive nature that exists. the intellectual nature has not yet developed.

Getting out of your mother's womb is the vibration that you catch that allows you to live in harmony with your environment.

It is the vibrations that you catch between zero to the first 7 years, which help you develop your reactions for several principles and concepts...

You will always be able to distinguish aggressive energy and energy leading harmony, love, patience, anger, lovers...

All the energy you have, you have, from the womb of your mother.

"In the meanwhile on earth it evolved by cycle ("Cycle") - It generally takes in me several years of its evolution on earth."

In the next lesson, concept 2 of the nature will be developed as man grows on earth. We will understand how these 2 natures evolved by 7 years.
